

WIPE EXPERT

- DATASHEET -

Wipe Expert is an award winning privacy protection tool that helps remove all traces of online and offline activity. Also with the help of our product you can free space from your hard drive by removing the unnecessary files..

How does WIPE EXPERT work?

When manually deleting a file, the only thing that is totally removed from your computer is its name, but the file's content will still be there. By simply using an undelete application you can recover the data.

Even if you format your hard drive or overwrite files, the data can be recovered using expensive hardware and software solutions.

Wipe Expert uses special data patterns to erase files and make them completely unrecoverable.

KEY FEATURES:

- Secure erase algorithms: U.S. DOD 5220.22-M, Peter Gutmann, VSITR, NAVSO P-5239-26 (RLL), NAVSO P-5239-26 (MFM), B. Schneier
- Multiple browser support: Internet Explorer, MSN, Opera, Mozilla, Firefox, Netscape
- Plug-in technology
